

Learn About the CompTIA Continuing Education (CE) Program

CompTIA's Continuing Education Program allows you to simultaneously keep your skills current while validating your expertise. Renewing your certification helps you maximize your overall return on the time and financial resources you put forth to prepare for, and pass your exam.

- [Renewal Cycle](#): Your certification expires three years from the date you earn it and must be renewed before that expiration date. If you don't know your expiration date login to your certification record.
- [Continuing Education Units \(CEUs\)](#): Each certification requires a certain number of CEUs for renewal. You earn CEUs by completing approved activities.
- [Continuing Education Fees](#): CE fees are required for renewal and must be paid prior to submitting CEUs unless you renew by earning a qualifying higher-level CompTIA certification, passing CertMaster CE or a CompTIA Recertification Exam.
- [Multiple CompTIA Certification Renewal](#): If you hold more than one CompTIA certification, you only need to meet the renewal requirements for your highest-level certification. When you renew your highest-level certification, your lower-level CompTIA certifications will automatically renew as well.

Choose Your Renewal Path:

[Renew with a Single Activity](#): You have a number of options for renewing your CompTIA certification by completing a single activity:

- [Complete CompTIA CertMaster CE](#)
 - [CertMaster CE for A+](#) - (available for those certified in exam versions 801/802 or earlier)
 - [CertMaster CE for Network+](#) - (available for those certified in exam version N10-005 or earlier)
- [Pass a CompTIA recertification exam](#)
 - [CompTIA A+ Recertification Exam](#) - (available for those certified in exam versions 801/802 or earlier)
 - [CompTIA Network+ Recertification Exam](#) - (available for those certified in exam version N10-005 or earlier)
 - [CompTIA Advanced Security Practitioner \(CASP\) Recertification Exam](#) - (available for those certified in exam version CAS-001 only)
- [Earn a higher-level CompTIA certification](#)
- [Earn a non-CompTIA IT industry certification](#)
- [Pass the latest release of your CompTIA exam](#) * Example: If you are renewing a CompTIA A+ 801/802 certification, taking and passing the CompTIA A+ 901/902 exams will renew your certification. (See note below.)

[Renew with Multiple Activities](#): Alternatively, you can complete a combination of activities to earn the number of CEUs you need to renew your CompTIA certification.

- [Earn another CompTIA certification](#)
- [Earn non-CompTIA IT industry certifications](#)
- [Complete training and higher education](#)
- [Participate in IT industry activities](#)
- [Publish a relevant article, white paper, blog post or book](#)
- [Gain related work experience](#)

*Note: If a Candidate has passed an exam (or multiple exams) and achieved a certification, he/she cannot take the exam again without prior consent from CompTIA. If you hold [multiple CompTIA certifications](#), you only need to fulfill the CE requirements (including number of CEUs and payments) for your highest level certification.

The following certifications (received on or after January 1, 2011) are valid for three years from the date of certification:

CompTIA Certificate	Total CEUs Required for Renewal (within 3-year period)	Yearly Fee*	Total CE Fees (3-year period) *
CompTIA A+	20	\$25	\$75
CompTIA Network+	30	\$50	\$150
CompTIA Security+	50	\$50	\$150
CompTIA Cloud+	50	\$50	\$150
CompTIA CSA+	60	\$50	\$150
CompTIA Advanced Security Practitioner (CASP)	75	\$50	\$150

* **No maintenance fee** is required if renewing through earning a qualifying higher-level CompTIA CE certification prior to your current certification expiration date, excluding CompTIA Cloud+ as it does not fulfill the total CEU requirements.

Submit Your Completed Activities

Manual Submissions: In most cases, you’ll need to log into your [certification account](#) to submit your completed activities and receive CEUs.

Automated Submissions: When you complete one of the following activities, CompTIA automatically renews your certification:

- Complete CompTIA CertMaster CE
- Pass a CompTIA recertification exam
- Pass the latest release of your CompTIA exam
- Earn a higher-level CompTIA certification
