

CSF-201 Citrix Content Collaboration Enterprise Essentials

Course Overview

[View Course Dates & Register Today](#)

This is a 2-day class

In this two-day course, you will learn about enterprise file sharing and synchronization with Citrix Content Collaboration. You will gain the skills and understanding needed to configure and manage your Citrix Content Collaboration environment, including implementation of StorageZones and the Windows and Citrix Virtual Apps and Desktopclients. Additionally, explore your control plane and data storage options; end-user management; and client deployment on Windows physical and virtual desktops.

This course will give you an understanding of Content Collaboration administrative responsibilities and teach you how to navigate the administrative console for facilitated deployment and file sharing success. This course is designed for IT professionals with little Citrix Content Collaboration experience.

Who Should Attend

Built for IT Professionals interested in learning how to implement Citrix Content Collaboration features using leading practices. Potential students include Administrators, Implementers/Engineers, and Architects.

Course Objectives

- Understand Enterprise File Synchronization, Sharing, and Citrix Content Collaboration architecture
- How to navigate the Citrix Content Collaboration administration interface and build StorageZones
- How to integrate Citrix Content Collaboration in an existing Citrix Virtual Apps and Desktops environment
- How to manage Citrix Content Collaboration users in an Active Directory environment
